

PAREX BLUE

Special Detergent
Swimwear – Underwear – Functional Clothing

Product Description

Special detergent designed for both hand washing and machine washing. Suitable for swimwear, underwear, functional and ski clothing.

Machine Washing

Use an appropriate washing program with a constant temperature of up to 30 °C.

We recommend washing garments in a laundry bag.

Dosage: 2 capfuls for the main wash cycle. With this dosage, the contents of the package are sufficient for 12 wash cycles.

Hand Washing

Soak the laundry for 10–15 minutes at a maximum temperature of 30 °C, then gently wash and rinse thoroughly in water of the same temperature. Do not wring ski clothing.

Swimwear should ideally be washed briefly by hand after each use – the detergent removes residues of chlorine, salt and sunscreen products.

Dosage: 1 capful (10 ml) per 7–10 litres of water. With this dosage, the contents of the package are sufficient for 24 wash cycles.

Stains

Apply a few drops of undiluted detergent to colourfast fabrics, leave to act for approximately 15 minutes, then wash.

Drying

Hang ski clothing while wet. Do not tumble dry, dry on radiators or in direct sunlight. If possible, do not iron; otherwise iron only with a lukewarm iron. Re-impregnate ski and water-repellent clothing after drying.

Effectiveness

The detergent has been specially developed for functional materials and elastic microfibres. It preserves colour freshness and functional properties of the materials.

Composition

15–30 % anionic surfactants (from renewable resources), less than 5 % fragrances (Hexyl Cinnamal, Linalool, Cinnamyl Alcohol).

Contains no optical brighteners or bleaching agents.

Preservative: potassium sorbate.

OECD Screening Test: readily biodegradable.

Warning

Causes serious eye irritation. In case of contact with eyes, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, seek medical advice or attention.

If swallowed: if you feel unwell, contact a poison information centre or doctor.

PAREX YELLOW

Special Detergent
Cotton – Linen – Ramie – Hemp

Product Description

Special detergent designed for both hand washing and machine washing. Suitable for cotton, linen, ramie and hemp.

Machine Washing

Use a washing program with a temperature of up to 60 °C or according to the textile manufacturer's recommendations.

Dosage: 2 capfuls for the main wash cycle. With this dosage, the contents of the package are sufficient for 12 wash cycles.

Hand Washing

Soak the laundry for 10–15 minutes (maximum 60 °C or according to manufacturer's instructions), then gently wash as needed and rinse thoroughly in water of the same temperature. Wash light and coloured laundry separately.

Wash printed or multicoloured garments by gently moving them in the water bath. As soon as the water becomes coloured, immediately transfer the laundry to a fresh bath.

Dosage: 1 capful (10 ml) per 7–10 litres of water. With this dosage, the contents of the package are sufficient for 24 wash cycles.

Stains

Apply a few drops of undiluted detergent to colourfast fabrics, leave to act for approximately 10 minutes, then wash.

Drying

Hang individual garments on a hanger and smooth them carefully – this will make ironing easier. Do not dry coloured laundry in direct sunlight.

Iron according to the manufacturer's instructions. Never steam garments containing elastic fibres.

Effectiveness

The detergent cleans gently and thoroughly. Colours remain bright and fresh and the laundry feels soft. Contains natural ingredients and is particularly gentle on the skin.

Composition

15–30 % anionic surfactants (from renewable resources), less than 5 % skin-conditioning agents, fragrances (Amyl Cinnamal, Citronellol, Butylphenyl Methylpropional, Coumarin).

Contains no optical brighteners or bleaching agents.

Preservative: potassium sorbate.

OECD Screening Test: readily biodegradable.

Warning

Causes serious eye irritation. In case of contact with eyes, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, seek medical advice or attention.

If swallowed: if you feel unwell, contact a poison information centre or doctor.

PAREX RED

Special Detergent
Silk – Viscose – Silk Blends

Product Description

Special detergent designed for both hand washing and machine washing. Suitable for pure silk, silk blends and viscose.

Machine Washing

Use only the silk programme with a constant temperature of up to 30 °C. We recommend washing garments in a laundry bag.

Dosage: 2 capfuls for the main wash cycle. With this dosage, the contents of the package are sufficient for 12 wash cycles.

Hand Washing

Soak the laundry for 10–15 minutes at a maximum temperature of 30 °C, then gently wash and rinse thoroughly in water of the same temperature. Do not rub, scrub or wring.

Wash light and coloured laundry separately. Wash printed or multicoloured garments by gently moving them in the water bath. As soon as the water becomes coloured, immediately transfer the laundry to a fresh bath.

Dosage: 1 capful (10 ml) per 5 litres of water. With this dosage, the contents of the package are sufficient for 24 wash cycles.

Stains

Apply a few drops of undiluted detergent to colourfast fabrics, leave to act for approximately 10 minutes, then wash.

Drying

Lay the laundry on a terry towel, shape it, roll it up and gently press out excess water. Dry knitted items flat.

Do not tumble dry, dry on radiators or in direct sunlight. Iron on the reverse side without steam.

Effectiveness

The detergent is perfectly adapted in all its properties to the specific requirements of silk fibres. The laundry remains soft, supple and colours stay vibrant. Contains natural ingredients and is particularly gentle on the skin.

Composition

15–30 % anionic surfactants (from renewable resources), less than 5 % fragrances (Limonene, Hexyl Cinnamal, Citral, Linalool).

Contains no optical brighteners or bleaching agents.

Preservative: potassium sorbate.

OECD Screening Test: readily biodegradable.

Warning

Causes serious eye irritation. In case of contact with eyes, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, seek medical advice or attention.

If swallowed: if you feel unwell, contact a poison information centre or doctor.

PAREX WHITE

Special Detergent
Cashmere – Wool – Angora – Mohair – Alpaca

Product Description

Special detergent designed for both hand washing and machine washing. Suitable for cashmere, wool, angora, mohair and alpaca.

Machine Washing

Use only the wool programme with the water heating switched off (cold wash). We recommend washing garments in a laundry bag.

Dosage: 2 capfuls for the main wash cycle. With this dosage, the contents of the package are sufficient for 12 wash cycles.

Hand Washing

Soak the laundry for 10–15 minutes at a maximum temperature of 30 °C, then gently wash and rinse thoroughly in water of the same temperature. Do not rub, scrub or wring.

Wash light and coloured laundry separately. Wash printed or multicoloured garments by gently moving them in the water bath. As soon as the water becomes coloured, immediately transfer the laundry to a fresh bath.

Dosage: 1 capful (10 ml) per 5 litres of water. With this dosage, the contents of the package are sufficient for 24 wash cycles.

Stains

Apply a few drops of undiluted detergent to colourfast fabrics, leave to act for approximately 10 minutes, then wash.

Drying

Lay the laundry on a terry towel, shape it, roll it up and gently press out excess water. Dry knitted items flat.

Do not tumble dry, dry on radiators or in direct sunlight. Iron on the reverse side without steam.

Effectiveness

The detergent is specially formulated for wool fibres. The laundry remains soft, fluffy and colours retain their brightness. Contains natural ingredients and is particularly gentle on the skin.

Composition

15–30 % anionic surfactants (from renewable resources), less than 5 % skin-conditioning agents, lanolin polyethoxylate, fragrances (Linalool, Hexyl Cinnamal, Butylphenyl Methylpropional).

Contains no optical brighteners or bleaching agents.

Preservative: potassium sorbate.

OECD Screening Test: readily biodegradable.

Warning

Causes serious eye irritation. In case of contact with eyes, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, seek medical advice or attention.

If swallowed: if you feel unwell, contact a poison information centre or doctor.
